OTECO DM Series Gate Valve

Oteco DM series fits the bill for low cost valve operation. Made from high strength weldable alloys and corrosion resistant components, this water, oil and gas gate valve provides ease of in-line repairs. The DM valve is offered in pressure ranges for 0-7,500 PSI (517 BAR), with standard or sour gas trim options, and 90 durometer main seals. All valves are Assembled and tested in our Houston, Texas facility.
